

## CodeRight™ Weatherboard & Fascias

CodeRight™ product from North Sawn Lumber comes with a 25 year limited transferable durability guarantee against decay and insect attack.

CodeRight™ Weatherboards are produced from NZ pine and treated H3.1 LOSP to provide a 25 year limited warranty. Only Number 1 grade qualifies to be sold under the North Sawn Lumber CodeRight™ brand, ensuring a top quality product to our customers.

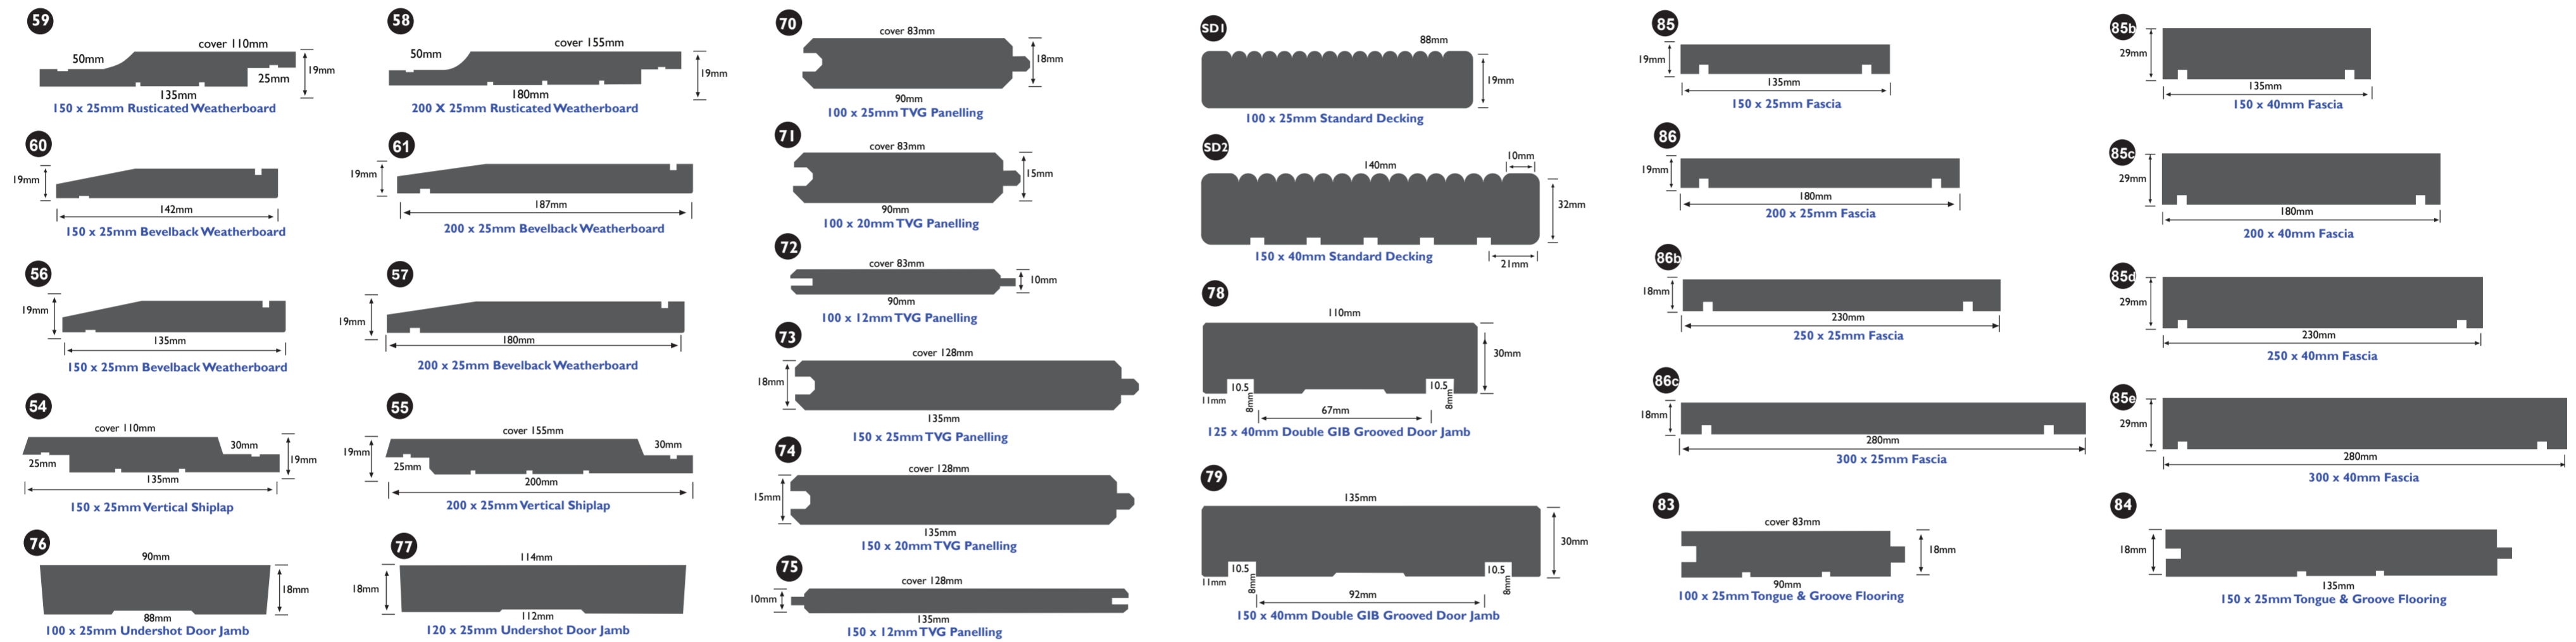

We offer a custom profiling service to match any weatherboard profile required by our customers.

All weatherboards are delivered with a preprime oil base to provide protection from dimensional change and maintain product stability.

CodeRight™ Clears weatherboard is a solid weatherboard, clear on four sides and can be purchased as fully dressed, or with bandsawn face.

To meet building code requirements it is important the customer understands weatherboards require 3 quality coats of paint. CodeRight™ weatherboards will not have any resin bleed ensuring the customer of a quality finish.

This product should always be stored in dry conditions on a flat surface protected from direct sunlight until installation.

## CodeRight™ Timber Mouldings

North Sawn Lumber supply a range of pine mouldings for both interior and exterior use.

Timber mouldings from North Sawn Lumber are precision machined by qualified technicians from premium radiata pine. These can be provided in a natural state or treated and primed as required.

We also provide a specialist custom machining service for large runs, please enquire.
